9. DATES OF CONCEPTION AND REDUCTION TO PRACTICE

It is important for us to document these dates, should any challenges to the patent ever arise. Conception is the formulation in the mind of the inventors of the ultimate working invention. Reduction to practice can be accomplished either "actually" or "constructively." **Actual reduction to practice** is the physical creation of the invention. **Constructive reduction to practice** is a detailed written description demonstrating that the invention will work as conceived. Describe the circumstances and dates surrounding development of your invention:
